

A-Bomb Survivors Testimonies

Remembering Hiroshima and Nagasaki and Building a Future of Peace

Join us for a conversation with Hibakusha, survivors of the atomic bombings of Hiroshima and Nagasaki, visiting LaGuardia Community College. They will share firsthand experiences of the bombings and reflect on the lasting impact of nuclear weapons. Through their testimonies, the Hibakusha hope to begin a dialogue with students about peace, the human cost of war, and the urgent need to prevent future nuclear devastation. Come listen, learn, and take part in a conversation about how we can work toward a more peaceful world, guided by the survivors' call for *No More Hibakusha*.

Nihon Hidankyo, the organization of atomic-bomb survivors, received the Nobel Peace Prize for its work to highlight the humanitarian consequences of nuclear weapons and advocate for their abolition.
